Bengaluru has been the place to be for the electronics industry in India for many years. After the cancellation of the physical events [electronica India](#) and [productronica India 2020](#), Messe Muenchen India decided to offer once again the opportunity for its customers to get together in this strong region in 2021. The next edition of electronica India and productronica India 2021 will take place from September 22-24, 2021, at Bangalore International Exhibition Centre (BIEC).

Bhupinder Singh, CEO Messe Muenchen India, stated: “Bengaluru has traditionally been an important destination for the electronics industry. Our customers and business partners support our plan to organize the shows in 2021 in this region. The twin trade fairs will accelerate growth and enable the aggregate electronic industry to gain momentum after the current economic slump.”

Falk Senger, Managing Director Messe München GmbH, added: “The business needs of our customers take always center stage. In 2020, we were not able to realize the physical event in Bengaluru. But we are confident that we will come back stronger in 2021, giving the electronics community a new chance to connect, network and drive business in the heart of India’s technology and innovation hotspot.”

Co-located Trade Fairs

The event portfolio in September 2021 at BIEC will be accompanied by the parallel events MatDispens as well as [LASER World of PHOTONICS India](#).
